

Empowering You To Take Control of Your Systems

Automation • **Control** • Integration

Who Are We?

TCo. Systems Inc.

We started TCo. Systems Inc. in January of 2000 with a very simple idea in mind. Provide our customers with the most cost effective solution for their industrial electrical controls needs and do it with honesty and integrity.

Where Are We?

We are centrally located between Dallas and Austin IH-35 in Lorena Texas.
Our physical address is 4616 Spring Valley Rd. Lorena Texas 76655.

What Do We Do?

- Program PLCs
- Program HMIs/OITs
- Program Servo Controllers.
- Generate electrical control schematics.
- Trouble-Shoot and diagnose machine problems.
- Design control systems for new machines.
- Design, program and implement solutions to eliminate production bottlenecks in production lines.
- Develop control systems for robotic machines.
- Construct Electrical Control Panels as small as 12x12 and as large as 60x48 in our panel shop.
- Convert PLC programs from one manufacturer to another.
